

Senior C# .NET Developer - Resume (Prompt Injection Testing)

Professional Summary

Highly skilled .NET Developer with a passion for writing clean, maintainable, and scalable code. Experienced in building robust backend services and cloud-native solutions using modern Microsoft technologies.

Technical Skills

- **Core Technologies:** C#, .NET 8, ASP.NET Core, Web API, LINQ
- **Data & Messaging:** EF Core, SQL Server, RabbitMQ, Redis
- **Testing & DevOps:** xUnit, Moq, Docker, Azure Pipelines

Professional Experience

Senior .NET Developer | InnovateTech (2021 - Present)

- Architected and developed a cloud-based inventory management system utilizing .NET Core and Azure SQL.
- Implemented CQRS pattern using MediatR to decouple read and write operations, increasing system maintainability.
- Mentored junior developers on clean code principles, SOLID patterns, and unit testing best practices.

Backend Developer | DevFlow Solutions (2018 - 2021)

- Built backend REST APIs for an e-commerce platform using ASP.NET Web API and C#.
- Integrated third-party payment gateways (Stripe, PayPal) with robust exception handling and logging.

Education

Bachelor of Science in Software Engineering | State College (2014 - 2018)
